

Folding curtain sideboard

883

At home, in the office or as a display cabinet in a shop – the concertinafront sideboard will look stunning wherever it is placed. Thanks to its many options, this classic furniture item can be adapted for specific purposes and exhibits all the design features that made the concertina-front cupboard a success. The basic module can be lengthened as desired using extension modules and, where necessary, made to fit a specific width with the use of a special module. Various options to suit different needs are provided for the interior configuration, the top and concertina front.

Dimensions of the folding curtain sideboard:

Width: basic module 80.2 cm, internal dimension 76.2 cm Custom widths are possible

height: 84 cm and 119 cm, depth: 47.3 cm, custom sizes on request.

Carcass and shelves made of coated wood-based panels (light grey, black or white). Transparent glass cover or RAL/NCS colour. Drawers are made of Alucobond (light grey). Folding curtain made of Dacron, polyester, felt or textiles according to our material samples.

The equipment of the drawers can be subdivided with flexible elements in alucobond.

Items can be presented and displayed to best effect under the glass top – allowing the sideboard to be transformed into a vitrine. The vitrine is accessible by simply lifting the glass top; on request it can be fitted with practical pull-out drawers. A black or coloured (RAL) glass top can be specified as an alternative to a transparent top, serving to enhance the sideboard effect.

There are practically no limitations on the internal configuration options or applications for the sideboard. The interior of the sideboard is hidden discreetly and aesthetically by the concertina front.

Dimensions and designs are subject to change without notice.
The depicted colours are not binding. Please ask for our material samples.
